

**INSTRUCTIONS FOR CORRECT USE-TO AVOID DAMAGE:**

1. **SUGGESTED USE IN:** sun - rain - dust - light hail.
2. **NOT RECOMMENDED FOR USE IN:**
  - a) **Rare or extreme weather phenomena** such as:
    - Storm with multiple volume of water or flooding.
    - Combination of African dust with intense storm later.
    - Heavy hail.
  - b) **Vehicles with:** reduced paint from multiple polishes, paint chips, deep scratches missing paint, dullness, pitting, hail damage, or have been repainted with poor quality materials or by an uncertified body shop using methods other than factory instructions.
3. **Before installation, the vehicle must be clean, without moisture,** with a cold engine and completely dry if it has been washed before, including the joints inside.
4. **Check regularly for wear or holes** in the hood (e.g from cats, etc.). Even inconspicuous holes may in very rare cases cause color changes due to insufficient waterproofing mainly on cars mentioned in paragraph 2.b.
5. **After heavy rain it is recommended to remove the hood or check** it to avoid humidity inside from water vapor of the soil during the exchange of temperature with sun, especially if the car is on a road surface with stagnant water. Replace the hood when the ground is dry to prevent moisture from causing a problem with the hood or, in very rare cases, damage to the car.

**INSTALLATION INSTRUCTIONS:**

1. **THE HOOD IS PLACED WITH THE SIGN IN THE FRONT (picture 1).**
2. **RADIO ANTENNA:** Remove before fitting (if screwed: counterclockwise). At the base of the antenna it is recommended to place a soft sponge if it presses the fabric.
3. **STRAPS (picture 1,2,3)::**
  - Tie the independent straps to the front wheels above the hood and to the rear wheels above the trunk.
  - Put the central strap under the car and fasten the clip on the other side.
  - Install belts without full tension to avoid damage.

**DOOR ZIPPER (picture 4): (for hoods with zippers):**

4. The right and left sides of the fabric must touch before closing. Avoid sudden opening or closing of the zipper.
5. **HOOD FOLDING (picture 5):** Fold over the car to keep the hood clean, in a strip the width of the car with the cotton on the outside and then in 30cm horizontal strips pressing to let the air out (picture 5).).
